

CD DVD-ROM Generator 2.00 SONY Rebuild Tutorial Crack

On this month's CD-ROM...

UFO  Discover the mysteries of the universe in this multimedia extravaganza of the supernatural – you'll never sleep soundly again!

Tyrian  Ridiculously fast, adrenaline-saturated, shoot-everything-that-moves game from Epic MegaGames.

Tekwar  Based on the series of novels by William Shatner – you have to run around shooting things, yet avoid being shot at yourself.

Entomorph  Following one of the most sumptuous intro sequences ever, this is a top-down, elves and dwarfs adventure with large monsters, combat and puzzle solving.

Witchaven  IntraCorp's second 3D adventure is a swords and sorcery, hack and slash affair. Think you're good at Doom? Let's see if your keyboard prowess can save you when you're armed with only a dagger!

Mortal Kombat 3  Quite possibly the greatest 2D beat-'em-up ever (and now a major Hollywood movie). *Mortal Kombat* now has a "3" after it. There are more moves, more characters and more gruesome fatalities. Not for the faint-hearted.

MechWarrior 2  Huge leviathan robots battling it out in a blasted wasteland. The best big-robots-fighting-each-other game around.

Worms  A strange and thoroughly violent mix of *Lemmings* and *Battleships*. Possibly. Run the game and you can decide.

Capitalism  Programmed by a 22-year-old genius, this corporate strategy game invites you to dabble with stocks, bonds, building construction and much much more. And we thought *SimCity* was cool.

In the First Degree  Can you prove Murder One? Check out this courtroom drama of epic proportions.

Zoop  "Gameplay is back in a big way" usually means the graphics aren't up to much, but in this case it means just what it says.

Abuse  A fast-paced and frantic shoot-'em-up from someone who works for id Software – yep, the id Software...

Panic in the Park  Part adventure and part logic puzzle, the park in question is an amusement park which someone feels the need to panic in.

MoneyBox  A splendid all-purpose personal finance manager – you've no excuse for being overdrawn now.

3D Pro  A module from the commercial program *VFI Workshop* – a 3D modelling package.

Logical Decisions  A demo of this powerful decision analysis program – experiment with its features.

Calamus for Win 95  A fully featured Windows 95 DTP system.

Music demos galore  Over a dozen demos of music programs to complement our music feature.

Shareware Showcase  Stacks of shareware, including some word processors, games and a Tiny Elvis who comments on everything on your desktop.

 Commercial program
 Fully playable demo
 Interactive demo
 Rolling demo
 Shareware program
