

FIRE DAMPER MANUFACTURE UAE

ABOUT US

TECNALCO, established in 1981, stands as a prominent brand in the United Arab Emirates, recognized as the premier manufacturer and supplier of air distribution products. Over the years, it has garnered a stellar reputation for delivering top-notch air supplies and duct accessories to a prestigious clientele, solidifying its position as the largest and most seasoned player in the industry.

FIRE DAMPER MANUFACTURE UAE

The dampers avoid the spread of fire through the ducts of heating , ventilation, and AC, helping to prevent a fire from spreading across the rest of the house. TECNALCO – Aluminium Technical Engineering Factory is the one of the best fire damper manufacturers in the UAE. Folding blade fire, a damper manufactured by TECNALCO designed to prevent fire from spreading through ducts, walls , ceilings, doors, partition walls or floors .We can supply a fire damper to build into masonry, floors, walls and other areas. We are committed to client satisfaction, which is why we also tailor fire dampers to your specific requirements regarding size and application. As part of our customized solutions, we offer fire dampers in different sizes, models, dimensions and so forth.

Besides fire dampers, we offer several other air control solutions. Do go through our website for a picture of what we offer for air control and safety.
