

Lilo Hotel Supplies

The One-Stop Shop for Hotel Supplies

We want to empower our customers, no matter their size, to streamline their operations, boost those profits, and free up some time for what really matters: their customers.

We want to empower our customers, no matter their size, to streamline their operations, boost those profits, and free up some time for what really matters: their customers.

We were founded in 2021. Before that, we did many things, including helping hotels with their purchasing, over and over and over, as consultants. We thought — what if we just download our brains and our connections to a platform 🤖.

We've done this many times before, and now we can help thousands of hotels and vendors, at the same time, with the help of AI.
