**AL BARAQ STEEL WORKS LLC**

## **ABOUT US**

Located in the New Industrial Area of Ajman, Al Baraq Steel Works L.L.C. was established on March 29, 2006, following an investigation conducted by a team of seasoned professionals from several fields, including engineering, manufacturing, sales, and management. They believed that a professional-owned business should be established with the aim of offering a variety of services, with a focus on engineering services—particularly steel structures—in order to boost the demand for engineering services. This organization can plan, measure, build, and install nearly any type of structural steel structure that can be thought of. Al Baraq Steel has developed into one of Ajman's leading steel construction firms and Dubai's leading steel building contractors.

## **STEEL CONSTRUCTION COMPANIES IN DUBAI**

Are you trying to find UAE-based companies that fabricate structural steel? We have been providing structural steel solutions of the highest caliber, on schedule, and at affordable prices for many years. As a structural steel fabricator in the UAE, we can confidently take on any project because to our knowledge and experience, which spans from steel erection to estimating. We consistently prepare for each obstacle that may arise, whether it be from relatively straightforward initiatives or more complicated ones. Customers have always appreciated our craftsmanship, and we are honored to have worked with some of the most esteemed companies in the UAE construction sector. Being a structural steel fabricator in the United Arab Emirates, we take pride in offering our clients solutions that go beyond basic fabrication.
