Care Tips for Your Black Leggings Australia

To ensure your black leggings stay looking fresh and last for many wears, it's important to take good care of them. Here are some tips for maintaining your leggings:

- **Wash in Cold Water:** Always wash your black leggings in cold water to prevent them from losing their color. Hot water can cause fabrics to shrink or fade.
- **Air Dry:** Avoid putting your leggings in the dryer. Instead, air dry them to maintain their shape and elasticity.
- **Avoid Fabric Softener:** Fabric softeners can break down the fibers in activewear, so it's best to avoid using them on your leggings.

By following these care instructions, you can prolong the life of your black leggings and keep them looking new for longer.
