EXCELLENT course! The trainers were very cordial, knowledgeable and explained concepts in a very simple manner. Overall the trainers and staff has been very helpful from the beginning. It was a good experience of getting trained with Fusion Software Institute. It was an intensive but very fruitful journey.

- Piyusha Mumbaikar

Student Feedback ★★★★★

The institute is decent, but there's room for improvement. The faculty is knowledgeable, but the teaching methods could be more engaging. Communication with administration could be better, as there were occasional delays in responses. Overall, the experience was okay, but there are areas where the institute could enhance to provide a more enriching experience.

– Ashutosh Shinde

Student Feedback ★★★★★

It has been a great experience learning AWS and DevOps at Fusion Institute. Special thanks to the instructor (Laxmi Sir) who has an amazing teaching style and he is very attentive to ensure all students understand the topics.

– Akshada Shinde

Student Feedback ★★★★★

I am currently pursuing my Java Full Stack course at Fusion Institute, Pune. Nisha Mam, who taught us Core Java and Advanced Java, is an amazing teacher. She explains concepts clearly and makes learning enjoyable. Her guidance has given us confidence in coding and problem-solving. I highly recommend Fusion Institute to anyone looking to grow as a developer !!!

– Vyankatesh Rokade

Student Feedback ★★★★★

The overall teaching experience is very impressive at this institution . The faculties are highly knowledgeable and incredibly professional in their approach . The instructors are approachable and always willing to provide extra help and support. Overall, this institution offers an outstanding learning environment . Highly recommended

– Rajnish Kewat

Student Feedback ★★★★★

The coaching I received has been outstanding! Having completed two courses, I'm fully satisfied with the teaching quality. The trainers for both Python(KD sir) and Data Science(sagar sir) were exceptional, making even the most complex concepts easy to grasp. Starting from scratch, I was able to understand all the terminology and build a solid foundation.

– Prajwal Dhande

Student Feedback ★★★★★

This class was incredibly informative and well-structured, covering core DevOps practices with AWS services. The practical demonstrations and live projects were especially helpful in grasping the concepts. It has significantly boosted my skills in cloud-based automation and deployment.
