Application and Care Tips for Press-On Toenails

To get the most out of your press-on toenails, proper application and care are key. Start by ensuring your feet are clean and dry; this will help the adhesive bond effectively. Apply a small amount of nail adhesive to the back of each press-on nail and firmly press it onto your toenail for a few seconds. For longevity, avoid exposing your nails to excessive moisture right after application. To maintain their appearance, gently file the edges if needed, and keep them clean by washing your feet regularly.
