Chapter 1: The Chaos Behind the Craft

You didn't choose the freelance or contractor life for the admin headaches. You chose it for the freedom, the flexibility—and yes, the money.

But somewhere between doing the work and getting paid for it, things get messy:

- Inconsistent invoices
- Forgotten hours
- Chasing payments
- Redoing contracts
- Tax-time panic

If any of that sounds familiar, you're not alone. And you're not stuck. You just need a system that works as hard as you do.

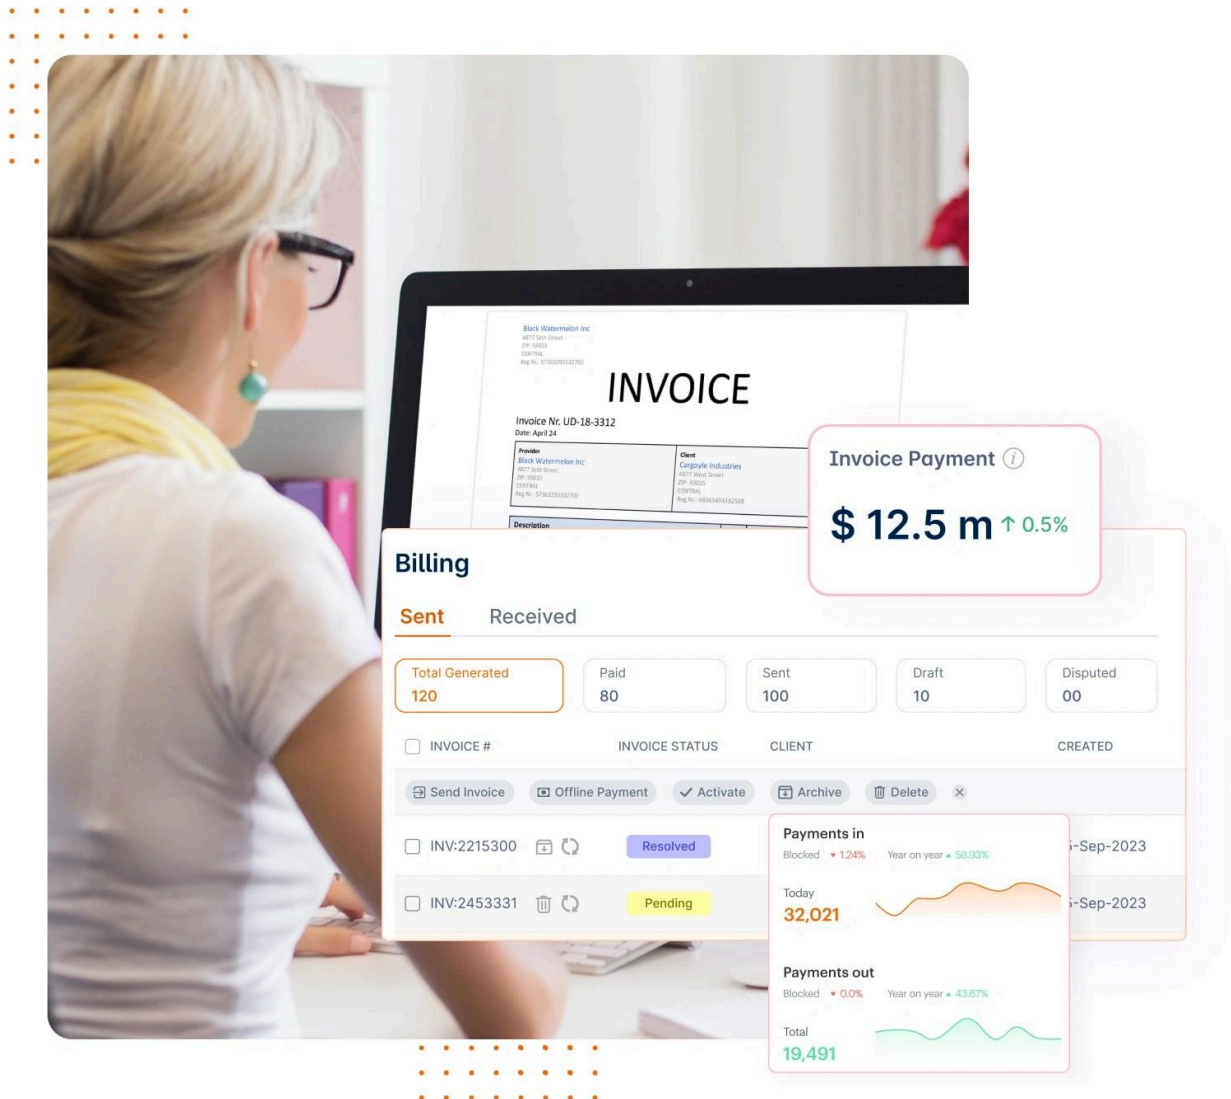

Chapter 2: Why Traditional Invoicing Is Failing Freelancers & Contractors

Let's call it what it is: Spreadsheets and free templates aren't "good enough"—they're holding you back.
